- **ABOUT INDUSTRIAL VISIT**

Company Name: IT Networkz, Mate Square, Nagpur.

Company Profile-Since 2002 IT-NetworkZ has been providing creative lab training to businesses, professionals, individuals, and students to leverage the vendor certification and utilize the many new digital technologies available today. We've helped businesses, professionals, individuals, and students transform their career needs with vital, practical, flexible vendor certification training that meet their own changing needs as well as those of their customers and employers. Staying ahead of the competition, innovation, creating business intelligence-they're all dependent on association and collaboration. IT-NetworkZ has the specialized abilities in Network Training and Consultancy. It also specializes in

project-based training. Headquartered in South Africa, USA, IT-NetworkZ has its Regional Training Center facility in Nagpur, India. In tune with the vision of global excellence, the company is expected to strategically diversify into Offshore Project Services and Placement with its key strength in the area of Training and Consultancy.

Today, IT-NetworkZ is a leading training provider with brick and mortar presence in Nagpur. Its main aim is to provide confidence to its clientele (who are businessmen, organizations and individuals) to achieve vendor certification with sound knowledge. IT-NetworkZ began its operations in February, 2002 and quickly achieved profitability. The company's clientele since has been consistently increasing, since its inception. The members of the technical team were sourced from the highest ranks of IT network services, and have extensive experience in Training, Knowledge Management & Network Technologies. Certified by multiple vendors of IT Industry.
