Sub: Explanation regarding letter ref no. JDCOEM/ME/2022-23/Even/130 related to subject feedback Theory

Respected Sir,

I, Prof. R. D. Bandane got subject feedback theory letter for B.Tech. 3rd sem in which feedback shows average status. I accept this feedback & there may be many reasons behind this record that are I join this college in mid-session I got to very less time for familiar to work with new system. On the basis of this status I will surely improve my performance by teaching with power point presentation, try to teach theory concept with reference videos, notes & my teaching will surely follow terms & conditions based on outcome based education.

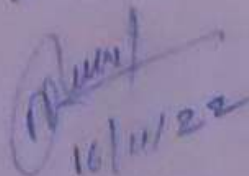

I assure you sir that I will improve my teaching feedback percentage with more hard work in near future.

Thanking you!

MEMO

It has been observed, on dated 10th April, 2023, you were not engaging lecture on 4th semester of subject Basic Electronics Engineering which was scheduled from 3pm to 4pm.

Same thing has happened in past 2 times that you were found not engaging lectures without any prior information and replacement. HOD need to call you for the same.

Why the disciplinary action should not be taken against you for such indiscipline?

Submit your explanation within 24 hours of the letter issued.

Subject: Explanation in reference to your later dated 11/04/2023, Ref.No. JDCEM/ME/2022-23/ODD

Respected Sir,

This is in reply to your above said later. For the first instance, I was been insisted by Dean R&D for attaining the meeting of Industry Academia meet for initial few minutes, as I was a member of Venue committee due to which I was late.

On the second instance I was on half day duty leave for managing the mementos of the Industry academia meet. As soon as I realised that I will be late for lecture I had informed Fourth sem class in charge Prof.Dhandre about it. He replied positively and dropped the message about the same in the DOME Whatsapp group. So there was a miscommunication issue.

On 10th April 2023 I was engaged in Lab audit work, student clearance form signature and thesis checking of final year students. Apart from this there was a student visit going on in e-Yantra lab from JD Polytechnic, Nagpur around 2 to 3 p.m. where I have my sitting.

Due to above said multiple activities I could not keep watch on time, and I got late for the lecture scheduled in your department in fourth semester at 3.00 p.m. I could not inform you about the same. I apologies for the same and assure you that it will not happen in future again. I look forward for your kind cooperation in achieving high standards of teaching.

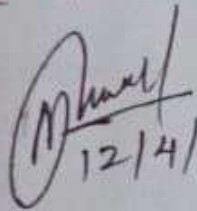

Thanking you

Subject: Explanation for low feedback for BEE subject of fourth semester, Mechanical department.

Respected Sir,

This is in reference to the student feedback received from fourth semester, mechanical department. Student feedback for BEE is 66.00% which is lower than other faculties of mechanical department. As per my understanding the reason behind this may be that only 3 to 4 classes were conducted before the feedback link was posted.

Secondly my subject is from ETC department, so the students are not familiar with the subject nor with me.

My previous year response for the same subject was above 75%. I hope up to next feedback session I will be able to manage the same feedback percentage.

I hope you will cooperate me in improving the feedback.

Thank You

increased by shifting BEE from

Saturday to any working weekday.

As due to rigour of Brahman's no. of lectures engaged was less. Also he assure to improve feedback next time.

Thank you for everything

Good

I am grateful to all who guided me throughout my college life in order to become a better person in future.

Thank you for everything

Very good

Overall MBA journey was amazing.

I am thankful to all faculties and staff members of JDCOEM for their valuable guidance during the complete course of MBA

I am also thankful to teachers and friends for supporting & encouraging me every time to participate and perform in various activities for bringing out the Best in me.

I developed my presentation skills by giving subjects presentation during the lectures.

As we are getting very short periods of time for coming offline in colleges still we get numbers of opportunities to learn from different events where I get platforms to update ourselves in different parameters like skills development, responsibilities etc

My overall experience was very good

Good experience in college more support in college faculty and management of college Very nice

College experience was amazing... JD college is unique as compared to other colleges... Faculty is very supportive...

I am grateful to all who guided me throughout my college life in order to become a better person in future

College life was like a roller coaster; full of twists and turns, ups and downs, and full of surprises.

After meeting new friends in my MBA and with guidance of teachers, my confidence has been increased a bit and I came out of stage fear.

The most memorable moments were flash mob and farewell day.

I express my kind gratitude to my guide, teachers and well as my friends for supporting me throughout the beautiful journey.

Overall MBA experience was very good. It has created a lot of unforgettable memories. Faculties were so nice they supported me in all aspects in every situation guided me esp. my TG Dr. Pravin Shaikh mam she supported me at every point of time. I learnt too much from this college.

Overall staff was good they support me in every situation.

Thank you. So much for everything you have done for me

The overall experience of 2 years is too good... Faculties are supportive Overall

activities are good and everyone supported me in my academics

The collage was Excellent and teaching staff very good.

Hello my name is suraj R.Awachat ,I got new friends and teacher.Good

experience

As an AI language model, I don't have personal experiences. However, I can provide some general information about the experience of MBA colleges based on the feedback and reviews provided by students and alumni.

MBA colleges offer a unique learning experience that combines theoretical knowledge with practical skills. The curriculum is designed to equip students with the necessary skills to succeed in the corporate world. The teaching methodology includes case studies, group discussions, and presentations, which help students develop critical thinking and problem-solving skills.

The experience of MBA colleges varies depending on the institution, location, and program. Some colleges have a rigorous academic schedule, while others focus more on practical experience through internships and industry collaborations. The quality of faculty, infrastructure, and resources also plays a vital role in the overall experience.

Students who have completed their MBA from top-ranked colleges often report a significant boost in their career prospects and earning potential. They also benefit from a vast network of alumni, industry connections, and job opportunities.

Overall, the experience of MBA colleges can be challenging but rewarding for those who are willing to put in the effort and dedication required to succeed.

Clg is very good

My personality is been changed according to the person I was before I had stage fear, lack of confidence while communicating. But overall activities and mentoring helped me to get over my problems and now I see myself as a matured person. c) Now I like to get involved in different activities related to academic as well as non academic.

College Life is one of the most remarkable and lovable times of an individual's life. Unlike School Life, College Life has a different experience, and a person needs to have this experience in his/her life. College Life exposes us to whole new experiences which we always dream of experiencing after our school life. Lucky are those who get the chance to enjoy their college life, as many people don't get this chance due to their circumstances or financial issues. For every person, College Life has a different meaning. While some people spend their college life partying with friends, others become more cautious about their careers and study hard. Whatever the way, every individual enjoys their college life and always wishes to relive that time once it is over.

It was a wonderful experience for me from day 1, I learnt a number of things in these 2 years, I was an introverted person but after 1st year I changed my attitude and started to speak, Now I can say I acquired the skills of a manager and all credit goes to my teachers who helped me at every stage in college.

It was very good experience in my college time. I learned more from this college Good
