- 5) **Event details:**

The month of October has been decided to be the month of online etiquettes. Department of EN/ETC of JDCOEM arranged an activity namely "Group Discussion: Online Classes – Challenges & Solutions". The objective of choosing this specific theme was born out of the need of sensitizing students about the etiquettes to be followed in online classrooms. Along with this, challenges and probable solutions would also be discussed during the activities. The discussion starts with the introduction given by Harish Gopale afterward all members discussed all Pros and cons of online classes, the students came up with solutions during the discussion. At the end of the session conclusion was given to the speakers by Ms. Prachu Patil. The students were also motivated to spend their non- classroom time in activities which help in rejuvenating them and provide with adequate relaxation. Use of one minute eye exercises to keep their eyes healthy was also suggested. The students were very patient and spoke really well. At the end Prof. N. N. Gyanchandani head of Electronics and Telecommunication Engineering Department encouraged the students for the activity. The event received an overwhelming response from all. At the end of the seminar, students got cleared with the Question answer session, and Prof. Shweta Sharma co-ordinated the programme. Constant support was provided by Prof. N. N. Gyanchandani, Head, ETC Department.

Department of Electronics and Telecommunication of J D College of Engineering and Management, Nagpur which is the first autonomous institute under Dr. Babaseheb Ambedkar Technological University, Lonere with NAAC 'A' grade, organised webinar on "Design Thinking, Critical Thinking and Innovation Design" for the students under the banner of IETE student forum (ISF), IIC and IIC for the session 2020-21 on 27<sup>th</sup> February, 2021.

Mr. Ashwinikumar G. Balani was the speaker of the webinar. He is the current CEO at First Impression Technologies, he is proficient in many technologies, including but not limited to Android App Development, Flutter, Matlab based signal processing, .Net Framework, PHP and its frameworks, VHDL based designs, block-chains, cryptocurrencies and many more. He started FITECH in 2009 and is spear heading the design and development division. He is also an active member of Startup Leadership Program, Mumbai chapter and was awarded as the most dedicated Entrepreneur for year 2016-17 at Mumbai. He is also the program leader for the 2017-18 SLP batch.

Mr. Balni Guided students about critical and design thinking in startups. He said by blending design thinking with critical thinking, we foster innovation that delivers customer-centric solutions. This mindset is crucial to the success of design thinking because its universal applications are a key driver for creating opportunities for both new and old solutions, no matter if they are internal- or customer-facing.

He said Exhibiting mindful restraint is at the heart of design thinking because it eliminates conscious and unconscious bias. Exhibiting mindful restraint is at the heart of design thinking because it eliminates conscious and unconscious bias. Design thinking is the art of mindful restraint.
