Place : Online Webinar on Webex
Date : 07/06/2020

Activity Details

Department of Management studies, J D College of Engineering & Management organised a Webinar on ‘**Employability Skills for Management Students – Industrial perspective**’ for the students of MBA on 07th June 2020. The resource person for the session was **Mr. Manish Khodaskar– Corporate HR Head, Arya Iron and Steel Company Pvt. Ltd., Mumbai.**

He has an extensive industrial experience of 22 years. Mr. Mohit Jeropath introduced the speaker.

Mr. Manish Khodaskar said that the students should focus on developing skills as part of their desired learning focus in order to survive in the competitive industry. He emphasize that technology is constantly changing and the students should be well equipped with skills and knowledge to keep pace with this change. He spoke on the various aspects of employability requirements like Soft Skills, good communication skills, interpersonal skills, problem solving skills, domain knowledge expertise, decision making skills, learning skills, Integrity, Team building skill etc.

The Objectives of the webinar:

- To help the students prepare for their future career in the industry through understanding these aspects of Desired Learning Focus, Technology transformation and Employability Requirements
- To guide them about the industry requirements in MBA student during procurement process.
- To provide information to inculcate managerial skills and enhancing their personality.

Dr. Anjali Chandak coordinated the webinar. The students of both first and second year MBA enthusiastically participated and interacted with the guest speaker. They were

thankful to the expert as well as all their faculty members of the department, HOD Dr. Swarnalata Philip for arranging this wonderful and informative session.

The screenshot shows a Cisco Webex Meeting window. The main content is a presentation slide titled "Employability Skills". The slide lists two skills:

- 1. Effectice Communication & Listening skills**
The ability to explain what is meant in a clear concise way through written and spoken means.
Communication is the transmission of an idea or feeling so that the sender and receiver share the same understanding.
- 2. Problem Solving**
The ability to identify key issues, implications and generate solutions. The ability to process data, formulate a vision and resolution. To be able to apply knowledge through critical thinking and creativity.

The slide also features an illustration of two people talking and another of a person thinking. The meeting interface includes a video feed of a man in a suit, a participant list with 52 participants, and a chat window.
